RE: Site Inspection, Resource Design Solutions, RDS 502, S/023/067, Juab County, Utah

Date of Inspection: March 21, 2001
Time of Inspection: 11:47 a.m. – 12:00 noon
Conditions: Sunny
Participants: Larry Garahana, BLM; Tom Munson, DOGM

It has been determined that either and/or the BLM or DOGM have been on this site 11 times since it was first started in March 2000. Joe Dunlop has not done any more reclamation. He is still out of compliance. There has been no effort on his part to do anything since our last telephone conversation. What minor amount of reclamation was accomplished was done with a little bobcat and could be considered less than 2% of the site reclaimed.

I will put together a chronology of events leading up to this point. We can then go forward with notice of agency action. Photos were taken to document the site conditions.
